

VAISHNAVI MANE

MERN Stack Developer

<mailto:manevaishnavi635@gmail.com> | 9511707543 | [LinkedIn](#) | [GitHub](#)

SUMMARY

MCA candidate (8.6 CGPA) specializing in the MERN stack, with hands-on experience building production-style web applications covering real-time data sync, and full CRUD systems. Comfortable across the stack — React on the frontend, Node.js/Express/MongoDB on the backend, with additional experience in Firebase, MySQL, and Java. Focused on writing clean, maintainable code and shipping features that actually work end-to-end.

TECHNICAL SKILLS

MERN Stack: MongoDB, Express.js, React.js, Node.js

Languages: JavaScript (ES6+), Java, Python, SQL

Frontend: React.js, Redux, HTML5, CSS3, Bootstrap, Responsive Design

Backend & Databases: Node.js, Express.js, REST APIs, MongoDB, MySQL, Firebase (Firestore, Auth, Storage)

Tools & Platforms: Git/GitHub, Netlify, Postman, VS Code, .NET (basics)

PROJECTS

Civic One – Civic Issue Reporting Platform | React.js | Node.js | Express.js | MongoDB

- Built a responsive React.js frontend with an intuitive UI for submitting and tracking civic complaints. Developed RESTful APIs using Node.js and Express.js to manage users, complaints, and media uploads
- Implemented complaint lifecycle management with status updates such as Pending, In Progress, and Resolved. Enabled image-based issue reporting with detailed descriptions and location information.
- Integrated Cloudinary for secure cloud-based image upload, optimization, and storage.

Real-Time Chat Application | React.js, Firebase (Firestore, Auth) |

- Architected a full-stack messaging platform using Firebase Cloud Firestore for real-time data sync and live presence tracking across connected users.
- Implemented secure authentication (Google OAuth + Email/Password) with Firebase Auth, handling session persistence and protected routing.
- Structured Firestore's NoSQL collections to support real-time listeners, the same data-modelling principles used in MongoDB-backed systems.

Beauty Parlour Management System | ASP.NET (Windows Forms) | SQL Server

- The project is a **Beauty Parlour Management System** developed as a desktop application using .NET (Windows Forms) and SQL Server by Microsoft.
- The project demonstrate features like course details, employee information, salary records, and billing.
- The application connects different forms to database tables, allowing users to add, view, update, and delete data easily, making the system efficient and user-friendly.

EDUCATION

- **Master of Computer Applications (MCA)** — Tatyasaheb Kore Institute of Engineering and Technology, Warananagar (First Year)
- **Bachelor of Computer Applications (BCA)** — Shivaji University, Kolhapur CGPA: 8.60

CERTIFICATIONS

- **Certificate of proficiency in C#** Issued Aug 2024
- **Certificate course of core java** Issued Sep 2025
